

Dataflow analysis assignment

Group members

- Liewe Thomas van Binsbergen
- João Paulo Pizani Flor
- Pepijn Kokke

Target language and analysis

- Javascript
- Start with a WHILE-lang-like subset, and then add “features”
 - Higher-order functions
 - Anonymous functions
 - Object-orientation
- Soft typing

Which environment to use for implementation

- Haskell (GHC 7.6.3, cabal-dev, etc, etc.)
- UUAGC, whenever applicable.
- Javascript parser: <http://hackage.haskell.org/package/language-javascript>
